

COFFEE ANTHOLOGY

PROJECT TYPE	ADDITIONS + ALTERATIONS
SITE + LOCATION	Margaret St, Brisbane City
PROJECT STATUS	Tender
SERVICES	Architecture Interior Design

Coffee Anthology, the highly revered 2016 winner of 'top cafe' in Australia, approached HPC to redesign their existing shop located in the heart of Brisbane's CBD.

The aim was to create a space that exemplified industrial chic whilst also providing a warm and inviting space with an improved street presence.

The design takes cues from the existing fit-out extending and improving upon the language of the space. Brick walls, stone counters, timber screens and benches were implemented to create a contemporary and timeless interior. Introduction of lighting and greenery soften the lines of the industrial elements and create a beautiful vignette.
